

DR GUSTAVO LEIBASCHOFF

Dr Leibaschoff trained under the pioneer of Mesotherapy, Dr. Pistor, 23 years ago. He has since completed thousands of mesotherapy & cellulite treatments and countless physician trainings. In addition to being one of the longest serving Mesotherapy practitioners in North America.

- **President of the International Union of Lipoplasty.**
- **Director of the International School of Lipoplasty “Dr. Pierre Fournier”.**
- **Director of the International University Academy of Aesthetic Medicine and Pathology.**
- **Director of the International School of Mesotherapy (ISM).**
- **Director for Continuing Education of the AMERICAN CELLULITE TASK FORCE (ACTF).**

Dr. Leibaschoff obtained his medical degree and completed his OB-GYN residency at the Buenos Aires University in Buenos Aires, Argentina in 1972. For more than two decades he has been dedicated to working and teaching in the fields of Aesthetic Medicine (non-invasive treatments) and Cosmetic Surgery. A member or leader of several well known professional and educational societies around the world.

Dr. Leibaschoff is well qualified and has high renown in the medical and paramedical world alike. Currently, he resides as a member of the American Academy of Cosmetic Surgery and a ‘Member of Honor’ of the Australian College of Cosmetic Surgery; he was the founding member and first president of the Argentine Aesthetic Medicine Association and the former professor of the Postgraduate School in Aesthetic Medicine at the Medicine School in the University of Buenos Aires. He has participated as ‘Faculty Member’ in many international scientific and professional congresses and has authored numerous publications in prestigious and widely variant scientific journals. Most recently, he Co-authored the book Pathophysiology of Cellulite. Continuing Medical Education and training is his main goal, as he states, "There is no other way to have the best and safest results for patients than the learning experience for the medical professional. Happy and healthy patients will be the reward."
